# SafeMBA Protocol

Road to Mars...

What is SafeMBA?

SafeMarsBaseAlpha is token on the Binance Smart Chain.

SafeMBA BSC holders earn passive rewards through static reflection. It does this by applying a 10% tax on transactions.

Features

Autonomous Yield

Simply HODL SafeMBA in your wallet and you get more.

Automatic LP

Every transaction contributes toward automatically generating liquidity locked inside PancakeSwap LP

Lottery Contract

Lottery contract to award prize give away.

Contract

The smart contract of SafeMBA is deployed on Binance Smart Chain and is verified by BSCScan.
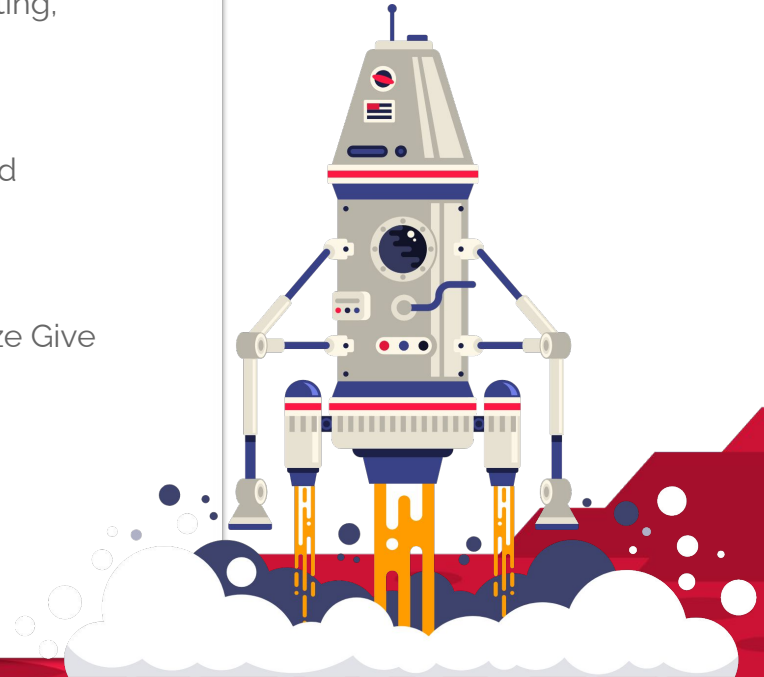

BSCScan Verification:
